

New Webkinz Cheats and Codes added!

Contributed by

After such a long time without any new and fresh Webkinz Cheats or Secret Codes being added to the site, finally Webkinz Secrets is updating the website with secret codes, webkinz cheats and tricks.

As most of you probably know, the Webkinz website and game itself had drastic changes made to its layout and mechanics overall. This is because of the cheats that were once so wildly popular among Webkinz owners. Players were using the cheats they found here to get lots of Kinzcash, dupe furniture and other items and even get free secret codes for free Webkinz. The people at Webkinz World eventually caught onto some of these cheats of course and they even posted some warnings about using the cheat tool to hack webkinz.

Now you should be aware that some of the Webkinz cheats that were posted here prior to this may not work any more. But I know for a fact that some of the old cheats still work on webkinz, not to mention the new webkinz cheats that are being posted.

So jump on these great webkinz and kinzcash cheats while you still can before the people at Webkinz World catches on to these as well. We will be keeping up with all the newest Webkinz Cheats, Free Secret Codes and hacks as they are discovered so keep checking back.
